

# LEE COLLEGE PUBLIC SERVICE CORE CURRICULUM OPTIONS

## High School Endorsement: Public Service

Students who desire to make a lasting contribution to society by serving their fellow man should consider a career in Public Service. Public service is one of the most in-demand career area. Education, Child Development, Law, and Social Work are some careers in Public Service.

Students planning to transfer to four-year schools should be aware that each college determines its own degree requirements, and different colleges require different courses for the same degree. Therefore, students who plan to transfer to other institutions should use the degree plan requirements at that institution to guide their choice of courses at Lee College. The best source of information regarding degree plan requirements is the official catalog of the institution. Catalogs are available on the transfer institution's website. Credits earned at Lee College in academic courses are generally accepted by accredited Texas public colleges and universities as specific courses requirements or elective hours. Students are responsible for understanding transfer institution degree requirements and should enroll in courses that fit into degree programs in the proper sequence to ensure orderly progression of work. Taking courses beyond those listed in this table may result in excess credits. While excess credits may help students meet high school requirements, the same classes may not count toward a college degree and could impact future of Financial Aid eligibility.

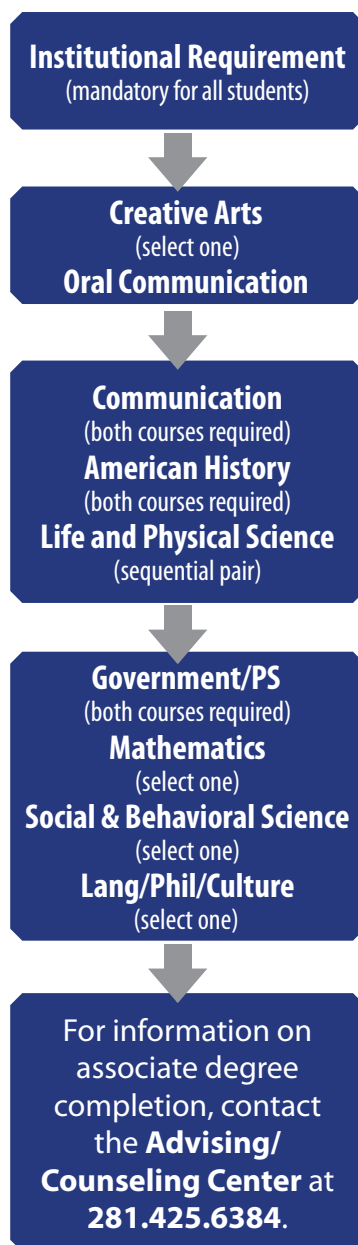

## PUBLIC SERVICE

| Component Area   | Approved Core Courses<br>**Course availability varies by high school and district**   | Credit Hours |
|--|---|--------------|
| <b>Communication</b><br>BOTH COURSES REQUIRED  | ENGL 1301 - English Composition I Credits: 3<br>ENGL 1302 - English Composition II Credits: 3   | 6            |

The core curriculum is an essential, state mandated component of the AA, AS, and AAT degrees. This table above provides course options to meet the General Education Core Curriculum requirements and matches those listed for the Associate of Arts (AA) degree. A course is only counted once in meeting core curriculum requirements. Course title and descriptions are found in the Course Descriptions area of Lee College Catalog.
