

Teacher Education

[Explore Catalog Search Courses](#)

An Associate of Arts in Teaching is a specialized academic associate degree program designed to transfer in its entirety to a baccalaureate program that leads to initial Texas teacher certification.

This Texas Higher Education Coordinating Board-approved collegiate degree offers a structured, two-year program to gain an initial understanding of theories and methods in educational instruction.

Students should work with their advisor to tailor course selections to align with their chosen transfer university. The transfer plans on this page shows a tailored example for a university commonly chosen by Lee College students. However, students may choose to continue their education at any university.

What will I learn?

- ED15 AAT — Prepares potential teachers for early childhood to sixth grade that plan to transfer to UHCL, UH Main, or UH-Downtown. Students interested in other transfer schools should work directly with an advisor.
- ED25 AAT — Prepares potential teachers for early childhood to sixth grade, as a Generalist, Bilingual Generalist, ESL Generalist, or Special Education Generalist.
- ED35 AAT — Future teachers interested in 4th to 8th-grade teaching.
- ED45 AAT — Students interested in pursuing an area of specialization applied to early childhood through grade 12 (Music, Physical Education, Art, etc.) or grades 8 through 12 (Mathematics, Science, Social Studies, Business, Languages, etc.).

What can I do with this course of study?

The AAT degree is designed for transfer purposes. Some students decide to stop out after completing the degree. The AAT meets the educational requirements for educational aides and substitute teachers. In addition, completion of the AAT is much like that of an Associate of Arts or Associate of Science degree in that it may qualify students for work that minimally require an associate degree.

Early Childhood to 6th Grade (Early Childhood Specialization Only) - ED15 (AAT) transfer plan

Interdisciplinary Studies B.S. with Core Subjects EC-6 Certification (Early Childhood Concentration)

Foundations: These are the courses students need in order to progress in their career/college pathway, as they either provide a certificate or lay the groundwork for moving to the next set of courses.
