ATTENTION

Read the following carefully and provide your signature to show you have read and understood each part.

1. A travel scholarship does not apply to college tuition and fees or to spending money for the trip but to the cost of the trip itself.
2. These travel scholarships are paid directly to the travel company.
3. A travel scholarship covers approximately 50% of the travel cost, based on the availability of funds. Students are responsible for the remaining trip expenses and any required food/spending money.
4. Travel scholarships cannot be awarded until the student has confirmed payment of 40% of the trip cost.
5. The student must agree to abide by all Lee College rules governing student behavior and acknowledges having read and understood the "student responsibilities during travel abroad" (see travel handbook).
