

Lee College to host Junior Achievement Inspire career fair

BAYTOWN, TX — Lee College will welcome more than 3,000 local eighth-graders to campus Dec. 14-16 for Junior Achievement Inspire, an interactive experience and career awareness fair that will give the students a glimpse into the wide variety of industries and job opportunities in the region.

This is the second year that Lee College has partnered with Junior Achievement of Southeast Texas to host JA Inspire for students from the Goose Creek, Barbers Hill, Crosby, Hardin, Liberty, Dayton, Hull-Daisetta, East Chambers and Anahuac independent school districts. The event will showcase the growing demand for local jobs in interest areas that align with high school endorsement tracks in Science, Technology, Engineering and Mathematics (STEM), Business & Industry, Public Services and Arts and Humanities. All eighth-graders in Texas must select a track of study before entering high school.

The students will begin their JA Inspire day at Lee College with an opening ceremony, then rotate to interact with businesses through industry presentations, career stations and exhibits and displays from regional companies. They will also participate in a soft-skills play that explores the intangible qualities employers look for in prospective hires, like leadership and communication, before wrapping up their time on campus by recapping their experiences and hearing from event sponsors.

For more information about the JA Inspire program, contact Junior Achievement of South Texas at 713.682.4500.
